HIGH EFFICIENCY WATER HEATERS

ENERGY STAR PROGRAM

With most homeowners looking to save money on their utility bills, and with environmentally conscious solutions at the top of everyone's mind, bringing an efficient water heater into a home makes more sense than ever. According to a recent study, 76% of American households associated products that earn the ENERGY STAR® with efficiency. We are pleased to announce that the following American high efficiency water heater models have been recognized* under the ENERGY STAR® program. **Effective as of January 1, 2009.*

HIGH EFFICIENCY WATER HEATERS

$300 TAX CREDIT

High efficiency water heaters are not just environmentally sound—over the course of their life-cycles, they can also help homeowners save a lot of money. That's why American offers a comprehensive line of high efficiency models that are designed to satisfy a wide range of consumers' needs. Due to a recent extension of residential tax credits for energy-efficient improvements, several American high efficiency water heater models are now eligible* for a $300 tax credit.**

** To be eligible, units must be placed into service between January 1 and December 31, 2009.*
